Note

The file was received back with the Dewan's order and after opening the Industrial School at Chitaldrug was forwarded - (file put up)

The original letter No $\frac{9200}{355}$ 29/4/02 regarding the opening of an Industrial School at Chitaldrug, was submitted with a draft to the Dewan on 2-5-04. In the present letter the I.G. requests that an additional amount of Rs 1000 may be sanctioned for the purchase of materials, the charge being met from the Savings of Rs 1250 being the cost of establishment of the School for 10 months from July 1903, as the school was begun in July 1903. The I.G. also states that an annual provision of Rs 1000 will be required for the purchase of materials and so a sum of Rs 1000 will be entered in the Budget for 1904-1905.

In the case of the Industrial School at Blue Island the L. G. L. wants an annual provision of \$1,000 for the purchase of timber & other materials. The

in the Budget of the current year is 1000 for initial expenses and Rs 1200 to 1500 for Establishment charges

In the case of the ^{Hyd} ~~the~~ Industrial School, there is a provision of Rs 2900 for the purchase of materials in the current year. A similar amount had been provided in 1902-03.

An imprest is merely an advance from which expenses are incurred from time to time for purposes of convenience. This does not, in my humble opinion, differ with the necessity for some fixed budget allotment to which the expenditure can be finally debited. In this view, the D.G.'s request for a budget provision for the purchase of materials ~~does~~ is not perhaps unreasonnable.
